

Team Resume Exercise

Background

Each of you has a unique array of talents, skills, and experiences to offer your team. When working in teams, it is important to understand what each person brings to the group. By getting to know your fellow team members early in the semester, you will be able to leverage each of your individual talents, skills, and experiences as you proceed through the course.

Purpose

The purpose of this exercise is to provide you with an opportunity to familiarize yourselves with your other team members and gain an understanding of the vast talents, skills, and experiences each of you can bring to your individual groups.

Activity Duration

Your team will have 15-20 minutes to create your team resume. You will then be given 5 minutes to present it to the class.
